

19A-600 — LSU System

Agency Description

The Louisiana State University (LSU) System mission is to create an environment of learning and exploration, by providing the citizens of Louisiana with the opportunities and benefits of a full-scale university, endowed with special responsibilities of a land-grant institution, to effect improvement in the quality of life of the people of the state. This mission involves development of the highest levels of intellectual and professional endeavor in programs of instruction, research, and public service. LSU, therefore, serves the people as an instrument for discovery, as well as transmission of knowledge. Each campus has a unique, but complementary role in the overall mission of LSU. This principle of geographic, as well as academic differentiation, allows the campuses to extend basic, along with exclusive programs, to citizens throughout the state.

LSU is one of the most diverse, comprehensive, and complete higher education systems in the country. The institutions range from two-year community colleges, master's, and doctoral granting four-year institutions, to a major research university. In addition, LSU provides a comprehensive group of professional schools including Law, Veterinary Medicine, Medicine, Dentistry, and the full spectrum of Allied Health professions.

LSU also consists of state-of-the-art standalone research centers such as the Pennington Biomedical Research Center, the Lions Eye Center, the Stanley Scott Cancer Center, and the Center for Advanced Microstructures and Devices (CAMD). The LSU Agricultural Center has one of the most developed cooperative extension services in the country; this public service entity reaches all parishes in the state. The agricultural experiment stations focus on areas such as aquaculture, rice experiments, livestock, cropland, landscape horticulture, timber, fruit, nut, and sweet potatoes. Research is analyzed in every major Louisiana agricultural product, and the dissemination of this information reaches all corners of Louisiana's diverse agricultural industry.

In 1997, LSU was charged with the responsibility of administering ten public hospitals, previously under the authority of the Louisiana Health Care Authority. Beginning in 2013, LSU started transitioning the management and/or services of its hospitals to private hospital partnerships. The interim LSU public hospital, Leonard J. Chabert Medical Center, University Medical Center, Washington-St. Tammany Regional Medical Center E.A. Conway Medical Center, and the LSU Medical Center in Shreveport are currently managed by private partners. Earl K. Long, W.O. Moss Regional Medical Center, and Huey P. Long Medical Center closed, and their services are provided for by utilizing private partners. Lallie Kemp Medical Center in Independence remains under the management of LSU.
