Code of Conduct and Risk Mitigation Agreement for Global Health Educational Opportunities

LSUHSC NEW ORLEANS is committed to preparing leaders for distinguished careers in clinical and public health practice, teaching, research, and public service. As part of that commitment, we support our trainees in their humanistic and compassionate desire to participate in global health educational opportunities. This document provides important information about the health and safety risks of traveling abroad and recognizes that while abroad, you are a representative of LSUHSC NEW ORLEANS. As such, in order to participate and/or receive credit for your experience, you are required to carefully review and sign this risk mitigation and code of conduct document. Please review this form and initial each section, date, and sign the last page, and submit the document with your GHEO General Application. Please also review this form with the LSUHSC NEW ORLEANS faculty member who will serve as your global health education mentor and make sure you fully understand all aspects of this policy. A global health educational opportunity can be incredibly powerful and inspiring, and we congratulate you on your decision to apply for this experience.

Personal Health:

- I will arrange an appointment with my primary medical doctor or travel clinic, to ensure that ALL recommended/required pre-travel vaccinations, and other essential medications are obtained in sufficient time prior to departure (it is recommended a pre-travel appointment be scheduled for three months prior to departure).
- I will sign up for LSUHSC NEW ORLEANS travel insurance, through the LSU System which
 will provide coverage for health issues while abroad, coverage of lost or stolen items, as
 well as expatriation should there be any conflict or safety concern while I am abroad. I
 understand that I will be financially responsible for any items or dollar amount not
 covered through LSUHSC NEW ORLEANS travel insurance (deductibles, exclusions, etc.)
- I will always keep a copy of my health insurance and evacuation insurance information with me on my person during my international experience.
- Health issues can be exacerbated under stressful and unfamiliar situations. I have no
 physical or mental health issues that would put me at risk or preclude my safe
 participation in this program. I understand that there may be limited availability of
 medications and will be responsible for bringing my own supply of necessary
 medications (over the counter and prescription) for personal use.
- I understand that neither LSUHSC NEW ORLEANS nor the host institutions are responsible for expenses relating to any illness occurring during my international experience. I will be responsible for medical and medically---related expenses and for seeking reimbursement from LSUHSC NEW ORLEANS travel insurance and/or my own health insurance company.

- Prior to my departure, I will review the Emergency Plan contact information with my LSUHSC NEW ORLEANS faculty mentor and fully understand whom to contact in case of illness or injury while working abroad. If I become ill or injured, I will follow the notification process as outlined in the Emergency Plan.
- Upon return to the U.S., if I become concerned or develop symptoms, I will schedule an appointment with my personal physician to check for any illnesses acquired abroad.

Initial Here:	

Occupational Standards:

- I will or have already participated in the LSUHSC NEW ORLEANS Global Health Educational Opportunity pre-departure training and/or the online orientation materials.
- I will discuss with my faculty mentor whether I will need to bring N95 masks and gloves and will review with my mentor the appropriate situations for use of these precautions.
- I will always utilize universal precautions.

Travel and Recreational Safety:

- I understand that my global health opportunity is for educational purposes. If I would like to travel for tourism, I will do so outside of my educational time, it will not conflict with my clinical or research commitments nor my classwork, and it will be at my own risk. I will arrange for my own travel and cover my own expenses when travelling as a tourist. When traveling as a tourist I recognize that I remain a representative of LSUHSC New Orleans and will maintain the same code of conduct and engage in the same safety measures.
- If there are any itinerary changes, regardless of whether these changes impact the dates
 of my rotation abroad, I will discuss these with my LSUHSC NEW ORLEANS faculty
 mentor.
- Traveling by car in resource-limited settings is markedly more dangerous than traveling in high income settings. I will wear safety belts in vehicles when a belt is available. I understand that my institution urges against hitchhiking, traveling on motorcycles, in the open back or tops of vehicles and trains, and at dusk or nighttime. I will avoid these modes of travel if possible, and if I must do so, will engage in these modes of transportation at my own risk while taking all reasonable precautions to mitigate the risk to myself and others.
- I understand that my institution recommends against driving motorized vehicles while working or traveling internationally, and I will do so at my own risk.

- Prior to travel, I will review with my primary medical doctor or travel clinic physician the
 risks for exposure to bodies or sources of water that may be sources of infectious
 diseases (i.e., schistosomiasis, Guinea Worm, bacterial infections, etc.)
- Locally present fauna and flora can pose specific risks based on location. I will make
 every effort to understand the risks posed by local flora, fauna, and wildlife through my
 pre-departure and on-site orientations. I am aware that the rabies vaccine use is not
 universally required and animals, including stray dogs, may have rabies or other
 transmissible and dangerous maladies.

Professionalism and Behavior:

- As a representative of LSUHSC NEW ORLEANS, I will hold myself to the following highest standards of professionalism, respect and courtesy creating a positive, respectful, and productive environment that benefits both the team, and the patients served.
- I recognize that learning inter-professional collaborative skills requires an understanding of how professional roles and responsibilities complement each other in patient-centered and community-oriented care. The inter-professional educational approach that is employed by LSUHSC enables an interdisciplinary sharing of expertise, perspectives, and resources. It is expected that all health care team members will work together to establish a common goal, synthesize their observations and profession-specific expertise, and collaborate and communicate as a team. Joint decision-making is valued, and each team member is empowered to assume leadership on patient-care issues appropriate to his or her expertise. I acknowledge that international contexts only serve to further emphasize the importance of this approach.
- I understand that resource limitations and austere environments may typify my
 experience. I recognize that there may be clinical educational contexts in which multiple
 disciplines share the same space. Accordingly, heightened awareness of potential
 impact on other learners/faculty/team members and the employment of civility are
 imperative. I understand that disruptive behavior, disparaging comments, or
 condescending language will not be tolerated.
- I recognize that personal behaviors, clinical skills, and competencies are culturally/locally framed and resource dependent. I will refrain from passing judgment and will be sensitive to cultural differences in standards of care.
- I will be punctual and arrive at meetings and rotations on time. I realize that people in my host community may not always be punctual by Western standards, and I will also be sensitive to cultural differences regarding punctuality.
- I am aware that I am responsible for fulfilling the number of elective weeks required for graduation, and for meeting my financial aid requirements (as applicable) each semester. Some days may require longer hours due to specific circumstances and

- conditions. Students/Residents/Participants are required to remain on site until dismissed by their respective team leader/mentor/supervisor.
- I understand that any unprofessional behavior affecting other learners, faculty, team members, or host community as determined by the course faculty or host site may result in temporary suspension of participation and/or permanent removal from the global health elective experience.

Initial Here:
iiiitiai iititti

Clinical and Public Health Practice:

- If performing clinical care or public health activities, I will care for patients/participants
 under the direct supervision of my assigned clinical/local mentor within the limitations
 established by my level of training in my home institution and including adherence to
 national and locality rules and regulations related to patient care and public health
 activities (dispensing medications, etc.).
- I understand that the same standards of professionalism apply when I am abroad as when I am at LSUHSC NEW ORLEANS, including full disclosure about my status as a student or trainee, discussing patient care with a supervising preceptor, and obtaining consent from patients and their families.
- If I am concerned that the work or activity is unsafe, I will discuss it with my local mentor before proceeding. If in doubt, I will contact an LSU faculty member on site, or my mentor at LSU.
- I will fully explain to my clinical/local supervisor my level of training and experience. I
 will not perform tasks, including exams and procedures, that I have not yet mastered
 without close supervision and assistance and under the direction of locally present LSU
 faculty if possible.
- I will keep the welfare of the patient foremost in my mind. I recognize that it is
 particularly important to honor patient autonomy and respect local culture in
 communities with limited resources, where all patients and participants must be given
 the choice of whether or not to have students and/or trainees involved in their care and
 participation.
- I will not assume that individuals are always open or comfortable in providing the information I am seeking or receiving the care offered. However, at a minimum, I shall treat all persons with at least the respect I would give them in the US.
- I agree to not express political or religious ideologies, regardless of the situation. When dealing with agencies or organizations, I will respect their operations and boundaries.
- When dealing with children, I will be especially cautious and respectful, even in the absence of their parents.

Initial Here:

Social Media and Photographs:

- I will use discretion in taking photographs, especially in a medical setting. When taking a
 photograph or video, I will always seek permission first and provide information
 regarding planned use of the photograph to individuals or the host institution being
 photographed. I will take all possible measures to protect patient privacy. If
 photographs will be used for public viewing (blogs, internet, email, Facebook,
 presentation, publication, etc.), LSUHSC NEW ORLEANS photograph release forms must
 be signed.
- In taking photos I recognize that it is important to respect people and take into consideration whether they may experience negative consequences of having their photo used.
- If I would like to keep family and friends informed of my experiences while abroad, I will
 use my personal email and ask that these emails not be shared publicly without my
 consent.
- I will avoid posting any sensitive information (i.e., regarding patient care, lack of resources, cultural differences, or political situations) on any public forum including but not limited to blogs, Facebook, twitter, etc.

Personal Conduct:

- I will respect and comply with the rules, regulations, and cultural standards of both the US and my host country, LSUHSC NEW ORLEANS and host institution.
- I will inform my LSUHSC NEW ORLEANS faculty mentor immediately of any legal problems.
- I will not engage in illegal substance use. This includes alcohol if use of alcohol is illegal in the host country. If culturally appropriate to consume alcohol, I will do so responsibly.
- I understand the sensitivities (including exploitation of power dynamics) involved in engaging in sexual relationships with individuals in less resourced settings and as well as the risks (HIV and other sexually transmitted infections, unintended pregnancy) and will not engage in such relationships.
- I will not engage in romantic or sexual relationships with staff, community members, or patients in my host country during my elective.

- I will refrain from participating in any political activity (i.e., strike, demonstration, protest, rally, etc.).
- While in the host country, I will dress in a culturally appropriate and professional manner inside and outside clinical settings.
- If awarded funding (stipend, scholarship, travel grant, etc.) from LSUHSC NEW ORLEANS, I understand that the stipend is to contribute to but may not cover all costs of travel preparation, travel, accommodation, food, and elective associated fees, and is not meant to support tourism or extra-curricular related travel.
- I understand that if I receive funding from LSUHSC NEW ORLEANS, I am making a commitment to participate in the experience. Once I have signed this conduct form, I understand that if I cancel my elective, I may be held responsible for costs incurred on my behalf including, but not limited to, airfare, travel advances, and administrative fees. Exceptions will be made only in the case of medical or personal emergency with an attending physician note and upon discussion with my faculty mentor.
- I understand that LSUHSC NEW ORLEANS will require me to participate in a pre-travel curriculum, and upon my return, I may be required to present my experience or participate in feedback to meet the requirements of this program and to receive elective credit if applicable (requirements determined by specific faculty mentor).
- I have been made aware of and understand all the requirements of this global health educational opportunity.
- I understand that LSUHSC NEW ORLEANS may revoke my funding or require for it to be paid back if I am not able to participate due to withdrawing from the program for any reason.
- I understand that any unprofessional behavior affecting other learners, faculty, team
 members, or host community as determined by the course faculty or site may result in
 temporary suspension of participation and/or permanent removal from the global
 health educational opportunity.

Initial Here:

Research and Teaching:

I will consult with my faculty mentor if I am interested in conducting research or
obtaining data for publication during my global heath educational opportunity. The
GHEO committee or subcommittee must provide advance written approval for any
research to take place abroad to ensure that IRB approval and appropriate human
subjects/ethical training, including any approvals required in the location, are obtained
if needed.

Initial Here:

Gift and Donation Policy:

- In engaging in global health education I am receiving education and experience from this
 elective and will likely receive more out of this experience than I am able to contribute.
 Personal gifts and donations, while expressions of my gratitude, may have negative
 consequences by causing jealousy, conflict, and/or favoritism in the workplace. Prior to
 my departure I will discuss with my faculty mentor the appropriateness of giving
 personal gifts and donations.
- I will not make direct donations to patients or other individuals, as that may compromise the patient-clinician working relationship and would also set a precedent for future visiting clinicians. If I would like to contribute to a patient's care, I will request to do so in an anonymous manner and will obtain permission through the host administration and mentor and discuss this with my LSUHSC NEW ORLEANS faculty mentor.
- In making donations of medical supplies, I will discuss with my LSUHSC NEW ORLEANS
 faculty mentor the utility of those donations in the clinical setting and the sustainability
 of an individual bringing donations of medical supplies. I will not administer expired
 medication or use non-sterile equipment without discussion with my LSUHSC NEW
 ORLEANS faculty mentor and the faculty mentor at my host institution.
